### The Parker State Bank,

PARKER, Linn County, KANSAS.

PARKER is on the M. K. T. Ry. 60 miles south of Kansas City; 25 miles west of the Missouri State line; has 475 people, a \$5,000 school building, three churches, (Methodist, Christian and Presbyterian.) The country around is rather more level than rolling; soil in north-west quarter of Linn county is mostly red, partly black loam and some grey soil; soil is less spotted than most of the eastern counties in Kansas.

These prices are the prices actually asked by the owners, are very reasonable and will not be lowered and are subject to the sale of land. The real estate solicitor of the bank has taken pains to get an attractive list of farms from among the bank's customers and on a low commission. We invite personal investigation of what we have to offer.

If you mean business we will take pleasure in showing you over the country. If you do not see fit to buy land, you will be under no obligations.

160 acres, one mile and a half from Parker; one-third in timber and clover, balance in pasture, some stony; 4 room good house, cheap for the money, \$4,400.

160 acres, 3 miles from Parker; postoffice and store on farm; flag station a few rods distant; house of five rooms, good double crib and post barn; 20 acres in timber pasture, living water, about 100 acres in corn, \$4,000.

100 acres, one and a half miles from Parker; neat, well built 3 room house, new orchard, good water, this land all gently rolling and in cultivation; is rented now for two-fifths of corn in crib and one-third of small grain delivered; rented to a choice of several tenants (can get possession, however). Farm is the best 160 acres out of 800 acres that belonged to one man; has been carefully tended but is in good hands now; for location, soil and lay of land cannot be beaten. Price, \$5,250.

570 acres, 330 acres of it corn, splendid prospect for good crop; this is an A No. 1 farm for general purposes and very cheap for the money, \$25 per acre. (Above land lies 2 miles S. E. of Parker, nearer than other towns.)

80 acres, one mile from Parker, good big barns and lots of shed room, fair house, good orchard. One-third in tame grass; farm is in good state of cultivation, good

out cellar, plenty of water and shade. Price, \$3,000.

319 acres, 5 miles north-west of Parker, improvements are first-class in every particular, newly painted, nearly all natural grass, a first-class stock farm. \$30 per acre.

640 acres, depot on land; 3 sets of improvements, all connected by telephone, is good land, very little rough or broken, stream runs through, affording lasting water for stock; main improvements are two dwellings in yard, double crib all lately painted. This tract is 9 miles south of Parker. Price, \$25 per acre. One-third cash.

290 acres, 80 acres of it rough pasture, balance is nice laying and good soil; 100 acres in crops, balance natural and blue grass. Price, \$5,500.

160 acres, 3 miles from Parker, all smooth and nearly all in cultivation, mostly in tame grass; 7 room house and barn for 1,000 bushels of corn; new granary and crib; the dryest year the threshing engines got water here; fruit and big maple grove, evergreens, etc. \$4,500.

80 acres, adjoining the above with good story and a half house, good framed barn and other outbuildings; all smooth and in cultivation; across the road from good new school house; house just remodeled. Price, \$2,500. 7 2t

### Starved to Death.

At Pratt, Kansas, on August 31, Judge J. C. Ellis, one of the best lawyers in Western Kansas, died at his home. He had followed a theory of fasting to cure dyspepsia, and had gone thirty-seven days without food.

What grows less tired the more it is eaten. A carriage wheel.

### Silver Bullion.

The director of the mint Monday purchased 50,000 ounces of silver for account of Philippine coinage at an average of 68 1/2 cents an ounce, delivered in San Francisco.

More than 4,000 Smiths were present at the annual reunion of one branch of the family at Peapack, N. J.

### English as She is Wrote.

America is the lodestone which sooner or later attracts the attention of every seeker after fame or fortune. News of our advanced business methods has penetrated to the most remote parts of the earth and thousands are anxious to share in the benefits brought by Yankee brains and energy. Haggadoe, a New York firm, receives many letters from men who wish to represent American firms in their own countries or to secure positions here. The following, received recently from a Portuguese living in the Azores, is certainly one of the most amusing examples of "English as she is wrote" in existence:

"Please say me if you find possible the publication of a monthly magazine in Portuguese for advertisement of American trade, in Brazil, Portugal and colonies. Germain has two or three of these magazines which are largely distributed among the trade men of these two nations. I believe that it shall be possible to such a publication without tuition of a board of trade. American trade loose too much by cause this fault. Germain good are sold like better and cheapest of world, when I have had occasion of verifying that is not truly, even considering freight and custom houses.

"I am a active prof. journalist with special predilection for studies of politeconomie. If I had whom advocate my wishes before The Board of Trade of New York it would be possible that I can not get in a backward nation. Be kind to consider my idea and write me your opinion or proposal. I know a spanish magazine published in New York for advertising American trade in the countries where they speak this language.

"I have practice to write and translate the English as the French but I have no practice to speak English. It shall be necessary to receive all orders, mandates or indications by writing at the beginning. I am 30 years of age and they say that I am diligent, intelligent, honest, and talented.

### Mob Rule is Anarchy.

Mob rule is anarchy. The prevalence of lynch law will result in no peace, no safety, no liberty. If a hundred or a thousand men, infuriated and inflamed by passion, or prejudice, or intoxication, or any other cause, shall be allowed to use their power to say whether you, or I, or any other citizen, shall live or die, then there is and can be no safety, no peace and no liberty; and in that case, all the efforts of all the men of all the past who have struggled and fought and died for liberty have been in vain.—Hon. Richard Yates, Governor of Illinois.

## From Abroad.

LETTER NO. XXVIII.

ROME, March 30, 1903.

Dear Judge: My rambles in Rome end now. In another hour I shall be on the train for Naples and the Kaiserine, and I feel that I am nearly home again.

Probably the greatest man in the world lives in Rome. His word is law to more people, and more people of high character and intellect, than that of any four sovereigns on earth. His life is one of toll, humility and devotion. The ponderous burdens of empires rest upon his venerable shoulders. Thousands of great leaders in every nation under heaven wait for his formal and official utterance, and to them it is infallible truth and inviolable law. These utterances are framed on benedictions before the throne of Wisdom, where he daily pleads for light. In humble confession, too, he bows daily in the presence of the priest and asks for forgiveness, pleading only the merits of that precious blood in which you trust for pardon.

Rome itself is great, modern Rome, as well as ancient. The tide of empire seems destined once more to flow towards Rome.

Perhaps the "Concert of Europe" will center here when the European alliance shall try to determine the destinies of earth. This is one reason I have for studying Rome. Excepting a few details I have not attempted to compass thoroughly more than the distinguishing features. The first impression of the grandeur and artistic glory of Rome grows more vivid and splendid from hour to hour. Old historic Rome, emerging under the spade of the archeologist, keeps pace with new Rome rising on ten hills and in every intervening valley, under the command of the modern artist and architect. A tour I made a day or so ago in the footsteps of Paul will interest you as much as anything I have done. Starting far out on the old Appian Way, we find everywhere along the way, hallowed by the feet of the apostle to the Gentiles, monuments of Christian triumphs. Myriads of the best men and women of earth to-day through this road to gaze prayerfully upon the sacred places. Catacombs where ancient saints worshiped and died, and martyrs were brought for burial, attract thousands to their dark, subterranean tombs, chambers and avenues. Resting places of ordinary saints in the face of the rock are marked by common stone, but those of the martyrs are distinguished by slabs of white marble ornamented with palm leaves of victory. When the martyr's body was withheld, the saints gathered from the arena or street where the martyr fell, a few drops of his blood and deposited it in a niche in this subterranean cemetery. Passing on to the gate through which Paul entered, I found it walled up and another opened near it, bearing the name of the illustrious Christian martyr, Sebastian.

The old Mamertine prison, a sort of cistern excavated in the solid rock, is reverently kept as a relic of Paul. I then repaired to Nero's basilica on the Palatine hill and stood awhile on the mosaic floor in front of the tribunal where Nero sat when Paul stood before him for judgment, and I followed his course through the Ostian gate to the place of execution. The gate itself is now called St. Paul, and every object upon which the eyes of the great apostle rested on his way to execution has become a sacred memorial to his memory. Around the traditional site of execution, rise magnificent Christian temples in memory of him who, before he marched triumphantly out to death, wrote from the dark, damp depths of the Mamertine:

"I am already being offered up, and the time of my departure is come. I have fought the good fight, I have finished the course, I have kept the faith: Henceforth there is laid up for me the crown of righteousness, which the Lord, the righteous Judge, shall give to me at that day: and not only to me, but also to all that have loved His appearing.—2 Timothy, 4: 6-8.

Sunday morning at 8 o'clock I went to the English church with three ministers to celebrate the Lord's death. Four English clergymen presided at the solemn service, and our hearts overflowed with emotion, such as this gracious privilege must always excite in the breasts of Christians. From this happy service I returned alone to my room at Hotel Minerva, and read through thoughtfully Paul's Epistle to the Romans. At 11 o'clock I searched out the Mission of the Southern Baptist Convention and heard a sermon in Italian. At the conclusion of this delightful service a handsome young man with a very scholarly face approached me and asked if I was not Mr. Tibbs, of Kentucky. I promptly confirmed his suspicion, and he proved to be Rev. Dexter Whittinghill, of the Louisville Seminary, who was commissioned last year by the Southern Baptist Convention for mission work in Rome. I learned from others of his unaffected piety, and sedulous devotion to his great work; and the story of his beautiful life and Christlike labors touched me deeply. These forces ought to be doubted by the Baptists, and their present sphere widened greatly in this vast field.

I was surprised that not one of the several Baptist preachers on this cruise attended service at this church. Most of the ministers of various tribes were out seeing the shows of Rome on Sunday. But they will be pious and scrupulous enough when they reach home. The Lord bless them all.

W. T. TIMMS.

### Had to Pay

### For His Paper.

People who allow newspapers to come to their address, year after year, taking them from the postoffice, and reading them, and then refusing to pay for them, are respectfully referred to the following dispatch, which appeared in the Courier-Journal:

"Henry C. Mooney, a Knox county farmer, took the Vincennes Capitol out of the postoffice regularly, but he refused to pay for it, claiming he had never subscribed for the paper. Editor George Cook filed suit, and in court, Judge Houghton awarded the editor judgment and Mooney will have to pay \$92 and costs."

### Counterfeit Money.

The secret service has discovered a new counterfeit \$10 silver certificate. The general appearance of the note is said to be excellent, and calculated to deceive even careful handlers of money. It is the imitation of the series of 1901, check letter D, Tillman register, bears the portrait of Hendricks, and apparently is printed from plates of photo-mechanical process. Three specimens of the note have been seen, all bearing the number 7,019, 318.

CONSTITUTIONAL AMENDMENT

To Be Voted On at the November  
Election.

CHAPTER 50.

An act to provide for an amendment  
to Section 181 of the Constitution of  
Kentucky.

"The General Assembly may, by  
general laws only, authorize CITIES  
OR TOWNS OF ANY CLASS to pro-  
vide for taxation for municipal pur-  
poses, on personal property, tangible  
and intangible, based on income,  
licenses or franchises, in lieu of an  
ad valorem tax thereon."

"Provided, cities of the first class  
shall not be authorized to limit the  
hypothecation of an ad valorem tax on  
such property of any steam railroad,  
street railway, ferry, bridge, gas,  
water, heating, telephone, telegraph,  
electric light or electric power com-  
pany."

PARDONS.

All Governors make some mis-  
takes in granting pardons, but the  
fault most generally is with those in  
whose integrity they have faith and  
who successfully deceive. Gov.  
Heckman doubtless has made some  
of these mistakes. But that he has  
been willful and that this power  
has been used with more frequency  
than other Governors, and with po-  
litical designing, the publishing of  
the records making a showing of  
comparisons between the law and his  
predecessors refutes and proves  
what straits the opposition is put  
to.

NO PARDON.

It has been said by some fellows  
who had little regard for truth that  
Governor Beckham if re-elected  
Governor would pardon Jett and  
White, convicted for the murder of  
Marcus, Republican. Governor  
Beckham commits himself on the  
question. He had read the evi-  
dence, considered the law and be-  
lieves in the guilt of these defend-  
ants and says they will never, so  
long as he is Governor be par-  
doned.

ALIVE.

The large enthusiastic crowd of  
Democrats which gathered at Win-  
chester on Saturday is proof of the  
interest of the party in the welfare  
of Kentucky. It gives further evi-  
dence that the people are thinking,  
reasoning and will vote after mat-  
ure deliberation, according as

reason may direct them. Repub-  
licans have been put on trial as to  
what they would do if allowed con-  
trol of the administration and the  
costs for this experiment continues  
to pile up. All citizens of what  
ever party affiliation would do well  
to pause and consider.

FOR RAILROAD COM-  
MISSIONERS.

The candidates for the Demo-  
cratic nomination for Railroad  
Commissioners of this district to  
be settled by a convention to be  
held here September 21, are men  
of ability, just with sufficient  
courage to act. Dr. A. Gathfif,  
of Whitley, is highly recommend-  
ed as well fitted for the position.  
He is a farmer and dealer in coal;  
and likewise is Judge Ben Dish-  
man, of Bell. Democrats cannot  
make a mistake in deciding be-  
tween these gentlemen. When  
nominated we must urge  
people to see the candidates fit-  
ness and vote according to merit.  
This done there would be no show  
for the election of the Republican  
nominee.

PARDONS.

Now that the number of pardons  
granted by Governor Beckham,  
collected from the records and  
given to the people destroys the  
opposition statement that "Gov-  
ernor Beckham has abused the  
pardoning power resulting in murders,  
factions and heavy costs to the  
State." It is time to shut up.

Democratic Convention.

At a meeting of the Democratic  
Committee of the Third Commis-  
sioner's Railroad District of Ky.,  
held at Winchester on Saturday,  
September 5, 1903, it was ordered  
that a District Convention be held  
in Mt. Sterling, Ky., on September  
21, 1903, at 1 o'clock, p. m., for  
the purpose of nominating a Demo-  
cratic candidate for said office in  
said district.

It was further ordered that a  
convention be held in each county  
in said district at the respective  
Court Houses, at 2 o'clock, p. m.,  
on Monday, September 14, 1903,  
for the purpose of selecting dele-  
gates to attend said district meet-  
ing.

That each county should be en-  
titled to one delegate for each two  
hundred votes or fraction over one  
hundred votes, cast for W. J.  
Bryan in 1900.

D. W. GARDNER, Chairman.

Returned to Moorefield.

Mr. J. M. Hopkins and family  
who have been living in our city  
have returned to Moorefield. We  
regret to lose the excellent per-  
son. Mr. Hopkins was in F. C.  
Evans & Co's. grocery, and when  
on account of Mr. Evans' continued  
ill health the firm dissolved, Mr.  
Hopkins was without employment.  
Other prospective business failed  
of consummation, hence his depar-  
ture. We wish him success. On last  
Wednesday the removal occurred.

Suit for a Meteorite.

The C. M. Ewing heirs have in-  
stituted suit against Thomas J.  
Horton in the Butts Circuit Court  
for the recovery of a 300 pound  
meteorite stone which fell on the  
said Ewing lands. Pergam values  
the stone at \$4,000, and has been  
offered about \$9,000 for it. The  
case will go through the courts and  
will be a matter of much interest  
for the reason that no specific law  
anticipating such claims has been  
enacted.

in a formal election campaign, and the fact that the state is, in my opinion, by reason of the prudency, economy and efficiency of its government, a democratic state which will be possible for all state officers and the people. I am certain that the people of this state will not only reduce the present rate of taxation, but will also reduce the school fund that thereafter it will be possible to reduce the rate of taxation to a seven months' public school term in the year, and to a state salary policy which will be a fair and equitable one and it will be possible to elect state officers. And yet Mr. Beckman takes me to task for not supporting the administration. But we shall pay our debts with all our debts and claims paid in full by the end of the year, and by the end of next January nearly \$100,000,000 in the state. There is not a man in the union who is not showing his loyalty to the state, and we are showing that ours. Bill Mr. Beckman says that the people of this state are not going to pay for the Kentucky people to pay will be uneasy about the state of the state, and

that have ever domed the nation for any other cause. We must never be known as a people who have been deceived by a man familiar with the facts of our history. We must have him, the shade of the man who ruled this nation, in the White House, if we would govern, in peace, freedom, and justice. Would you, if so fortunate as to be left to do, permit a free brick bat to be thrown at the face of Kentucky as it flows to the surface of Kentucky waters? Let me say to the best in the state and greatest in our country, my friend of the hour, that I am not a man of reflection upon her honor.

I will say to the best in the great commonwealth and are now my countrymen, a resolution along with Clay, Lincoln, and the great majority of the people, that we do not get a fair trial in Kentucky and this. Now, the state over which you are to govern, is not a fair trial.

Let him answer these questions before he is elected.

Let every all, the greatest service and the greatest honor to the people of the late republican convention was to meet at the place and time proposed to meet, the government was afraid to keep it out of the campaign. But they unanimously and blindly followed the man who had deceived the people to his action in the matter. I am not a man of reflection upon things said by me in that convention and I am not a man of reflection upon the purpose was to make my position clear to the people of the state and to let forth them for the United States and the people of the state.

### DR. J. J. TAYLOR Elected President of Georgetown College.

Dr. J. J. Taylor, one of the recognized scholars of the South, at present pastor of the Baptist church at Norfolk, Va., has been elected President of Georgetown College. Should he see his way clear to accept this high and responsible position he would bring powers and gifts into line that would push this famous college into greater favor. This is the second time Dr. Taylor has been elected to this position. The first was following the death of the lamented Dudley, and which he declined because he preferred the pastorate. There will be a host of school and church people to welcome Dr. Taylor to Kentucky and the Presidency of this great college.

### Williams-Hicks Meeting Results.

Of the 142 confessions made at the Williams-Hicks meetings here, about 50 up to this time have taken membership.

Baptist church 22, eleven of which came independent of the meeting.

Methodist church 18.

Christian church 18.

Southern Presbyterian church 12, ten of which did not come through the meeting.

First Presbyterian church 5.

The fact that quite a number did not come to the churches as a direct result of the meeting, is evidence of the good seed sown, the harvest of which is being gathered as time goes on.

#### Railroads

It has been given out through the Associated Press that a mortgage has been recorded for the purpose of securing bonds, the proceeds of the sale of which will be used in the construction of railroads from Columbus, Ohio, via Mayaville, connecting with C. & O., L. & N. and other southern railroads, for the developing of coal lands in the counties of Eastern Kentucky. #### Big Fire at Winchester.

On Sunday morning about 5 o'clock fire was discovered in the B. F. French block of buildings on E. Broadway. The block is a three story brick, occupied by Hughes' livery, Barnes' grocery and a Chinese laundry. The horses from the livery stable were saved, but their rigs and conveyances of citizens of Winchester were lost. The contents of grocery and laundry were practically a complete loss. The loss will reach \$20,600, with \$5,700 insurance. Origin of fire is not known.

### FACTS and OBSERVATIONS

Going to and Coming From Stanton—Political Comments.

Lies or Misrepresentations—A Fight "Are You Ready to Die, Sir?"

The writer left town on Monday morning and stopped at Winchester (see report of fire and religious). Travel on the L. & E. going and coming was heavy. On train the judicial race in Winchester was discussed. From statement in morning Lexington papers and comments by friends, it seems that Judge Redwine has decided not to make the race; but newspapers so often either willfully lie or grossly exaggerate or misrepresent facts that many people (including the writer) look with suspicion upon the reports in daily papers. This conviction has been strengthened since the Lexington Leader reported the Democratic campaign opening at Winchester on Saturday. A reporter who has no more regard for truth should be admonished to reform, and if he persists should be discharged by a reputable paper.

D. W. Gardner, of Salyersville, was reported by one of the Democratic papers as making statements concerning the judicial race. He was on the train and told the writer that he did not so express himself, in fact was not interviewed. So it is that some Republican and some Democrat reporters sometimes lie or misrepresent some people on some questions.

A conference was to be held at

Beattyville on Tuesday (yesterday) relative to certain candidates for the Commonwealth Attorneyship in same district. As we go to press no report has been received (see in another column about conventions on September 12 and 15). We will have something to say in next issue.

We were en route to Stanton to attend Democratic campaign opening. Our friend, W. Rogers Clay, of Lexington, was to speak. Although his coming was poorly advertised (judging from what we heard in town) there were over 80 men to hear him. Mr. Clay is a talented young man, very popular at home, and in presenting Democratic principles and facts, has a pleasing, persuasive manner. There was in it nothing to exasperate Republicans if they do not object to facts.

We were guests of West End Hotel. The proprietor, J. S. Ewing, will have his building enlarged and refitted, with commercial sample rooms and livery. His table has always been supplied with palatable food, of great variety, well prepared—a kind of home-like fare. Call to see him when in Stanton.

One of his daughters had been sick for ten days.

J. S. Ewing sold his 1,100 pound feeders, nice ones, for \$340. Everything was reported as moving along nicely in Powell. We did not see the ball game at Clay City, but as train was at depot there, we did see a man (probably about 30 years old) get his lip or nose mashed for his impudence in snatching a stranger's hat as the train pulled out. Train stopped at water tank. The snatcher was on

the ground and the stranger, young Tutt from Campton, on train. When train stopped hat was returned, words followed, Mr. Snatcher, smart alex, feigning drunkenness showed fight and started on the steps after Tutt. Tutt kicked him vigorously, landing one as above described.

With blood streaming, Mr. Snatcher grabbed a piece of plank and up he came. The writer told young Tutt to pass further inside car, and then met the bleeding victim at door and told him not to come in. He stopped, without being asked "are you ready to die, sir?" As a souvenir we caught on our shoe some drops of blood. If a Lexington reporter wants to make a tragedy out of this he has our consent.

We stopped at Winchester. The Street Fair appeared to be a tame affair. Heard Rev. Williams preach. Came home on late train.

### Be Kind.

Cultivate kindness of heart, think well of your fellowmen, look with charity upon the shortcomings in their lives, do a good turn for them as opportunity offers, and finally do not forget the kind word at the right time. How much a word of kindness, encouragement or appreciation means to others some times, and how little it costs us to give it!

We need not wait for some special occasion. When calamity overtakes a friend, words of sympathy and encouragement are offered sincerely enough, yet in certain respects as a matter of course. Such an occasion calls for expression on our part, and we naturally respond. But why wait for an occasion? Why not speak the kind word when there is no special occasion?

In the course of our lives there must be many times when thoughtless words are spoken by us which wound the hearts of others. And there are also many little occasions when the word of cheer is needed from us and we are silent.

There are lives of wearisome monotony which a word of kindness can relieve. There is suffering which words of sympathy can make more endurable. And often even in the midst of wealth and luxury, there are those who listen and long in vain for some expression of disinterested kindness.

### Featherless Chickens.

The Agricultural Department at Washington City, is endeavoring to develop a race of featherless chickens for the warmer parts of the country. It has been discovered that the time of moulting can be reduced from 100 days to less than thirty, and that moulting can thus be gradually done away with. It is suggested that feeding should stop early in August, allowing the chickens, for two weeks, only enough food to sustain life, and then stuff them with all kinds of food. The chickens will eat so much that inside of a week the feathers will be forced out the body, leaving it naked. By the end of a month they will be covered with new down, and begin laying again.

It pays to be fair and square, whether you have a conscience or not. There is a lot of satisfaction in gazing at the rugged features of an honest man in the looking glass each morning you rise. A whole lot of money will not recompense me for the loss of his character and consequent self-respect. The shifty, two-faced, tricky, sneaky, unreliable man may make some sharp trades and gather in some coin by his dishonest games, but in the long run he will get the worst of it. He will some time be estimated at his true worth, and passed by as not wanted, the same as a bogus dollar or a counterfeit bill.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea, summer complaint of any sort if you have Dr. Fowler's Eucalypti and Wild Strawberry in the medicine chest.

### The Blind Tiger in the Mountains.

The "Blind Tiger" is one of the most potent political influences in the mountain counties in which the sale of liquor is prohibited under local option laws. In Republican counties, as a rule, the blind tiger is a Republican—in Democratic counties he is a Democrat; his province is to nominate or defeat. He "stands in" with such officers as shut their eyes to him and his ravages, and defeats such as he knows or fears will drive him out. He is both cowardly and fierce. When the officers of the law are feeble, incorruptible and dutiful, he draws in his claws and goes over the county line; but he bluffs and bullies and fights when he believes he can scare, buy or "beat" with the officers of the law. It is said that in Breathitt the blind tiger takes no pains to hide himself; his favorite haunts are near the highway where he is convenient and can easily be found; his keepers make no secret of his ownership and everyone knows where to find the tiger and who owns him. It is believed that the officers of the law are on his side, and for some years no real effort has been made to interfere with such blind tigers as will vote in primaries and be "reliable" at elections.

The County Judge, the County Attorney and the Sheriff can buy the blind tigers, and if they do their duty and the Circuit Judge and Grand Jurors do theirs, the blind tiger can do no more harm than a blind kitten—it is hardly worth drowning. If there was no blind tiger in the mountain counties, law and order would soon reign. There are no partisan lines here; blind tigers care nothing about politics; they are Republicans where and when it pays to be Republican; Democratic when it will be to Democratic.—Morning Herald.

### Newsboys' Law Goes Into Effect.

All New York newsboys under 14 years of age began wearing badges August 31, in accordance with the law passed by the Legislature. Badges were issued only to boys between the ages of 10 and 14 years.

Boys under ten will not be permitted to sell newspapers and boys over fourteen can sell without badges. The law prevents girls under sixteen years of age from selling newspapers, and no badges are issued for girls.

In order to secure a badge, a boy must be a regular attendant at one of the public schools or at a private school, and must have the consent of parent or guardian to accept the badge and go into business. The work of distribution is in the hands of the Association City Superintendent of Schools, who expects to issue more than 6,000 badges.

Tightly Locked From Nervous Spasms.

Physicians Could Not Prevent Fits.

Dr. Miles' Nerve Cure My Wife.

Dr. Miles' Nerve Cure has been successfully tried in thousands of cases of nervous disorders, but never has it made a better record than when used in the treatment of fits or spasms. Thousands of testimonials prove this, and in nearly every instance the writer has stated that the fit ceased after the first dose of Nerve Cure was given. The statement is repeated in the following:

"Seven years ago my wife commenced having spasms or fits and I called in my home physician and he said she was paralyzed. He rubbed her with salt water and gave her calomel and the eventually got some better, but in a short time she had another attack. She was confined to her bed for three months and the doctor told me I was a helpless case. She had fits frequently, some times very severe. Her hands would clasp so we could not open them and she finally got so her jaws would become locked. Finally I saw the doctor was doing her no good and ordered a bottle of Dr. Miles' Restorative Nerve. She received so much benefit from the first bottle that I got some more. She has taken a number of bottles but has never had a fit since taking the first dose. She also thinks very highly of Dr. Miles' Nerve and Liver Pills and is never without them. If there is any way of making this testimonial stronger, do so because of the good the Dr. Miles Restorative Nerve has done my wife."—Wm. Y. Allen, P. M., Elkville, Miss.

### Cheaper Pig Iron a Benefit.

The tardy reduction in pig iron did not come quite soon enough, and yet it is astonishing that many people think it an unfavorable business feature. Lower prices on iron means a resumption of activity in building operations, agricultural implement manufactures and in scores of collateral industries. The fact that prices of pig iron and steel were forced up so high as to cause the importation of pig iron alone of nearly 900,000 tons, notwithstanding the high tariff, is a convincing demonstration of the truth of this proposition. This was equal to the production of twelve furnaces, running continuously, and producing 200 tons a day. This raw material cost much more than it would have cost if manufactured in the United States, but the pressure of consumption was so great that it was impossible to wait upon domestic production.

The cost of building has been increased 30 per cent. over that of a year ago. A part of this increase is due to the higher cost of labor, but the enlarged outlay on all iron and steel products was also notable. A concrete example of this extra expense, due to the high price of iron, is thus detailed by the New York correspondent of the Philadelphia Press.

### Cheap Rates to the West and Southwest.

On the first and third Tuesdays of May, June, July, August and September, 1903, the Missouri Pacific Railway and Iron Mountain Route will sell one-way and round trip tickets to various points in the West and Southwest at greatly reduced rates. The round trip tickets will bear final return limit of 21 day from date of sale, with liberal stop-over privileges. Advise me your objective point, the number of tickets required, whether one-way or round trip, and I will cheerfully quote rates and mail, free of charge, interesting printed matter and maps.

### Publicity the Wisest Policy.

There has been published a list of pardons issued by Governor Beckham and a comparison made between the pardons granted by him during his administration and by Governors Bradley and Brown during their respective administrations. The Louisville Herald, the Evening Post, and perhaps other anti-Beckham newspapers allege that this list is defective, and print the names of certain convicts who have been pardoned by Governor Beckham. It is also charged that this list is defective in not including several classes of pardons, and that from it are also omitted the names of those convicts who have been paroled by the Prison Commission during the present administration. For these parols Governor Beckham is not officially responsible, nor is he personally responsible unless it may be in some few special cases. And it is not fair to charge either him or his associates on the ticket with these parols. We were earnestly opposed to the Prison Commission act, and we have regarded the decision of the Court of Appeals affirming its constitutionality as the most lamentable judicial opinion in our judicial history. It practically formed an amendment, and a most mischievous amendment, to our constitution and introduced a new form of government in Kentucky—government by legislative commissions—an irresponsible, despotic, expensive and ultimately corrupt form of government. But Governor Beckham is not responsible for the management of our penitentiaries under this commission. The members are elected by the Legislature—not appointed by the Governor—and he has no control over their paroles.

But omissions from the lists of those pardoned by Governor Beckham will necessarily injure him. It is due to him far more than to any other person that this list be full and accurate. Nor will it do to omit pardons granted for alleged misdemeanors or pardons granted before conviction or any other class of pardons. Perhaps the most serious and hurtful charge against Governor Beckham in relation to his use of the pardoning power is concerning misdemeanors, and alleged promises to pardon even before indictments were returned. We respectfully submit to those friends of Gov. Beckham who are preparing these lists and making the argument that he has pardoned fewer convicts than his two predecessors, that the number of pardons is of quite immaterial importance; the character and nature of the crime, the testimony against the convicted, the peculiar circumstances of each case and the object to accomplish by the pardon—these are of importance.

In every aspect of this matter the utmost publicity and unlimited candor and accuracy will be found to be the wisest policy.—Morning Herald.

### Farmers' Combine.

A good, solid, old round trust by the farmers of this country, for the express purpose of keeping all the standard crops on the farm until the consumers need them, and shipping them out to the middlemen in a way to prevent a surplus, is the need of the time, says the New York Farmer. This can not be done, of course, with milk, small fruits and some other products, but it can be done with hops, tobacco, beans, eggs, apples, corn, oats, rye, wheat, buckwheat, rice, sweet potatoes and other long-keeping products. Until this is done, the profits on agriculture must continue to flow into the bank accounts of the middlemen, and not into those of the producers. Every farmer should study the question of selling methods, and try to devise a system of selling that shall prevent a surplus in the market or the accumulation of the standard crops in the hands of the middlemen at the harvest-gut prices.

## Consumption

The only kind of consumption to fear is "neglected consumption."

People are learning that consumption is a curable disease. It is neglected consumption that is so often incurable.

At the faintest suspicion of consumption get a bottle of Scott's Emulsion and begin regular doses.

The use of Scott's Emulsion at once, has, in thousands of cases, turned the balance in favor of health.

Neglected consumption does not exist where Scott's Emulsion is.

Prompt use of Scott's Emulsion checks the disease while it can be checked.

## SO SOOTHING.

Its Influence Has Been Felt by so Many Mt. Sterling Readers.

The soothing influence of relief after suffering from Itching Piles, from Eczema or any itching of the skin, makes one feel grateful to the remedy. Doan's Ointment has soothed hundreds. Here's what one Mt. Sterling citizen says: T. S. Garrison, farmer, living one mile from town on the Grassy Lick pike, says: "When I state that Doan's Ointment is the best remedy for healing and allaying irritation that I ever came across, I know what I am talking about and I have my opinion on the following: For a number of weeks I was greatly troubled with a bad sore on the back of one of my hands. It was caused from a bruise and so painful was it at times that I could scarcely use my hand. In spite of all I could do and those of numerous salves, ointments and everything that I could hear of, the irritation became worse and kept gradually spreading. Doan's Ointment was brought to my attention and I procured a box at F. C. Duerson's drug store. I had but little faith in it, but after one or two applications I noticed the inflammation being reduced, and it was only a short time before the trouble was entirely removed."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

## Anti-Drinking Song League.

Otto von Leisner, one of the foremost social reformers of Germany, has issued an impassioned appeal which he entitles "The Muse as the Handmaid of Alcohol," against the habit of poetic glorification of habitual drinking. He says:

"It's terrible that the most eminent poets of Germany should devote their muse to the service of people who are committing either slow or rapid suicide by their drinking customs. Drinking songs, with their imagination, their public-house wit, their easy rhymes, are made peculiarly attractive for young people; and these songs are set to music by the best composers. These songs glorify intemperance, moderate drinking is ridiculed and total abstinence held up to scorn. These songs are sung by school boys over their first glass of beer and incite them to further potations. When these boys arrive at the universities their ambition is to become toasters. These songs, to which no sufficient attention has yet been directed, have contributed as much as anything else to vitiate and destroy the youth of the country, to raise a false standard of honor and are accountable for much in the national behavior which bring upon Germany the contempt and ridicule of foreigners."

Dr. Von. Leisner proposes to form an anti-drinking song league.

## Kill the Thistle—Law in the Case Giving Penalty for Failure to Destroy.

Kentucky Statutes § 200—Duty of owners to cut and prevent thistles from going to seed—Penalty. It shall be the duty of every person or persons and every corporation holding lands in this Commonwealth, either by lease or otherwise, on which any Canada thistles or weeds commonly known as Canada thistles, may be growing, to cut the same, so as to prevent such weeds or thistles from going to seed and the seed ripening. Any person or persons, or corporation as aforesaid in this Commonwealth, and who shall knowingly neglect or refuse to comply with the provision of this act, shall forfeit and pay a fine of five dollars, recoverable before any Justice of the Peace, or by indictment in the Circuit Court of this State.

§ 201—Right of aggrieved person to enter and cut thistle—Notice—Cost of Cutting—Any person or persons who may consider themselves aggrieved or about to be injured by such neglect or refusal, to give five days notice in writing to such person or persons or corporation, to cut and destroy such weeds or thistles, and on their neglect or refusal to cut and destroy the same at the end of five days, it shall be lawful for any person or persons so aggrieved or believing themselves about to be injured thereby to enter upon such land or premises, and cut down and destroy such Canada thistles. Any person or persons so employed shall be entitled to recover from such person or persons or corporation, owning or holding such lands, compensation at the rate of one dollar per day to be recovered as debt of like amount in any court of this Commonwealth of competent jurisdiction.

## To Prevent Galled Shoulders.

During the hot weather as the horses are put to hard work it will be found that their shoulders will very easily gall and become sore. There are several plans to prevent this, but none excels or gives better satisfaction than the following:

"Take an ordinary sweat pad and cover the surface next to the shoulder with white, soft oil-cloth. Be very careful to have it put on very smooth, without any wrinkles or lumps on its surface. The cover is put on by neatly sewing it with strong thread, so that it will not become displaced. The trouble with the horses' shoulders in this respect is caused by sweating, and as the oil-cloth presents a cool, dry surface and does not hold the dampness as leather or cloth does, it prevents the shoulders from becoming sore in almost every instance. Another good remedy is to wash the horses' shoulders daily, or semi-daily in clear, cold water."

**THE DUFFORD'S BLACK DRAUGHT**  
THE GREAT  
FAMILY MEDICINE

Dufford's Black-Draught has saved doctors' bills for more than sixty years. For the common family ailments, such as constipation, indigestion, hard cold, bowel complaints, chills and fever, biliousness, headaches and other like complaints no other medicine is necessary. It invigorates and regulates the liver, assists digestion, stimulates action of the kidneys, purifies the blood, and purges the bowels of foul accumulations. It cures liver complaint, indigestion, sour stomach, dizziness, chills, rheumatic pains, sciatica, backache, kidney troubles, constipation, diarrhoea, biliousness, piles, haemorrhoids and headache. Every drug-gist has Dufford's Black-Draught in 25 cent packages and in nammoth size for \$1.00. Never accept a substitute. Insist on having the original made by the Chattanooga Medicine Company.

I believe Dufford's Black-Draught is the best medicine on earth. It is good for any and everything. I have a family of twelve children, and for four years I have kept them free and healthy with no doctor but Black-Draught. A. J. GREEN, Mewers, La.

MT. STERLING STREET FAIR AND CARNIVAL

### Farewell Reception at W. A. Sutton's.

On last Thursday evening a goodly number of the Baptist church members and christian friends met retiring pastor Rev. W. J. Bolin at the lovely home of Deacon W. A. Sutton and family to enjoy the hours from 7:30 to 11:30 with them and to bid them good-bye. It was really pleasant for these good people to know the many friends in and outside the Baptist congregation and how deeply interested they are in the future of these people of God's vineyard. The home was beautifully and appropriately decorated with cut flowers and potted plants, the yard brilliantly lighted with Japanese lanterns, while instrumental music aided in turning the mind from the sad parting. Refreshments were served, well wishes were tenderly expressed from loving co-workers and heavy of heart in groups the guests took their departure, realizing that these earth changes are inevitable. On yesterday Mrs. Bolin and the children left for her father's home in Tennessee, from which place they will join Rev. Bolin at their new field home in Baton Rouge the last of October. That this dear family may ever be under the guidance of the spirit of God, that they may be kept and used for His glory, is the wish of every thoughtful child of the King.

I am selling a tea worth \$1.25 for 75c, and one worth \$1 for 60c.  
T. J. DOUGLAS.

### Agricultural Circus Acts.

A conspicuous feature with the Great Wallace Show, which are to exhibit in Mt. Sterling, Tuesday, October 13, is the number of acts of trained domestic animals. Homely old hogs are shown to possess some brains, as Lil Kerslake and his troupe of sagacious Arkansas "razor-back" pigs will demonstrate to the satisfaction of all who visit the Wallace Circus. In another ring appears Muslinier's group of sheep, which have been given a high education. In the third ring, Gilbert's company of trained goats jump all over their trainer and themselves, as they dismount from the picturesque pyramids. On the hippodrome track appears William Henchy and his celebrated hurdle-jumping mule "Sambo," also A. G. Lowande and his notoriously stubborn mule, called "Whirlwind." Altogether, aside from the performances of the wild beasts, the exhibition of trained domestic animals with the Great Wallace Show is funny, wonderful, exhilarating and instructive. Verily, the Wallace Circus is capable of entertaining every class of people, which fact will be thoroughly attested by its exhibition in Mt. Sterling, October 13.

## DEATHS

LACY—A dark shadow has fallen across the threshold of another family, yet all is not darkness; another grief has come, yet they sorrow not as those who have no hope. Sorrows and tears can no be exchanged for joys and smiles, for in heaven there is no pain, no tears. On Friday, August 29, 1903, at 2 p. m., Miss Carrie Hazel Lacy, only daughter of D. Boone Lacy, died at their home near West Liberty, in Morgan county. She had been sick only nine days with brain fever. She was born, May 30, 1885, hence was in her 19th year. After years of suffering and helplessness, her mother died on May 22, 1902. Since that time Carrie has kept house for her father and younger brother, James Curtis. For more than a year she has been a member of the Christian church. Her departure will bring loneliness and sadness to her father and brother, but they should comfort themselves with the thought that "blessed are the dead who die in the Lord" and that to "depart and be with Christ" is far better than to remain here. May we learn to say: "The Lord gave and the Lord has taken away, blessed be the name of the Lord." The writer had been in their home, having known several of the family for many years. To them he offers his sympathy, and expresses the hope that after earth's trials and heart aches these may come through the Christ, a happy reunion in that heaven home prepared for those who love God.

PREWITT.—Mrs. David Prewitt, aged 28 years, died at a Lexington hospital on Tuesday morning, September 8, 1903, at 1 o'clock. Her maiden name was Mattie Estill. She is a sister of Solomon Van Meter, of Fayette, and of R. T. and W. W. Estill, of Clark. She married Mr. Prewitt about six years ago. To them have been born four children. The funeral service will be held at their county home this (Wednesday) afternoon at 2 o'clock and the burial will be in Lexington cemetery. Jno. G. Winn and wife, Dr. Taylor and wife, and Mrs. Pierce Winn are attending the funeral. Mr. Prewitt is a brother of Mesdames Winn and Taylor. Mrs. Prewitt visited here frequently. The many friends will deeply sympathize with the family in their great loss and sorrow.

HICKET.—Mr. John Hickey died at the home of James Hickey, near Sharpburg, Sunday morning, of cancer. The remains were brought to this city Monday morning for burial. Funeral service was held at St. Patrick's church at 10:30, conducted by Father Dewageneare.

## SOCIAL EVENTS.

On Friday morning from 10 to 12 Miss Pearl Bruton received the patrons of her school at the school building on West Main. The children, always attractive, were made more so by palms and ferns. On arriving the guests were refreshed with lemonade. After an examination of the rooms, equipments, etc., brick ice cream and cakes were served. About fifty invitations had been extended. Several friends assisted in the entertainment and all pronounced it a pleasing event. There were no gentlemen present.

You want the newest and best. See Guthrie Clo. Co., 10, 11, 12.

## Circuit Court.

Circuit Court convened on Monday. The following are the grand jury: R. F. Moore, S. S. Priest, Campbell Gibson, J. R. Peed, Charlie Douglas, Nelson Wells, Wm. Bridgeforth, Albert Howard, R. D. Ratliff, Henry Parrish, T. L. Fogg. Court adjourns to day until September 22. We wish to make only one suggestion. Gambling is unlawful and progressive culture (where articles are lost and won) is gambling, progressive culture is unlawful and should be stopped. Gentlemen of the jury, call before you several ladies of the "social set" and find out a thing or two. Show no partiality between male and female, white and black.

## Another Shooting.

On Saturday night some unfortunate men and boys assembled at the home of an unfortunate woman in this city. Among those present were Jesse King and Virgil Donnoway, from Johnson Station neighborhood, said to be 16 and 19 years old. A difficulty occurred. King was shot with a pistol. The ball cut an artery and broke the bone of his thigh. The inmate of the house and the companions in sin did not tell of his condition. By chance Policeman Smith heard of the shooting and went to investigate. At about 11:30 o'clock, three hours after the shooting, he found the boy lying on a bed, weak and pale from the excessive loss of blood. Aid was called and the boy was removed to the home of Eugene Berry, in this city, where he was on yesterday when this report was gotten. His condition is serious. It is said that Virgil Donnoway did the shooting, although a report had it as an accident. No arrest has been made.

### Don't Nibble.

The country is being flooded with prospectuses of mining companies of one kind and another, offering stock for sale, coupled with the glowing promise that big dividends will follow to the lucky purchasers of same. Did it ever occur to the average newspaper reader that if there was a reasonable probability of big profits from the aforesaid properties, that the money kings of the country and practical and experienced men with personal knowledge of the situation would gobble up these wealth promising localities quicker than a cat could wink its eye? Usually the best customers for shares of stock in these concerns of big promise are men of comparatively small means, who are infatuated with the idea of quick and increased returns, who are easily persuaded to invest a few hundred dollars in these catchy schemes, with the expectation of waking up some fine morning to find themselves rich. The country is full of suckers that readily swallow the glittering bait held out by sharpers with mining stocks for sale.—Georgetown Times.

### A Unique House.

The following is a good story clipped from an exchange: "A young American found himself in an English country house. He carried the habit of self-glorification beyond the possible point. A son of the house took him aside and spoke to him delicately upon the subject. "Well, the American said, 'it would hurt me to offend any of your inular prejudices. I'd take it kindly if you'd give me a nudge, or a kick, or something, when you think I'm spreading it too thick.' That night the American took an English heiress to dinner, and she happened to refer to conservatories. It started the American. "I had a cousin in Virginia who built himself a greenhouse that was thought remarkable. It was 118 feet long, 90 feet high, and— Here his shiny were harked under the table and the son of the house caught his eye. He rubbed the dent and added, with a sigh, 'And about an inch wide.'"

### BREATHITT COUNTY CHILD

#### Who Bandies a Winchester Like a Man.

One of the most striking examples of the warlike instinct in the people of the mountains is young Dexter Howard, who is now under indictment at Jackson for maliciously wounding James Barrett early in July. He is but thirteen years of age, and appears but about ten. He has a bright, honest face, and is frank and outspoken. He shot at James and John Barrett because he believed they were going to attack his father, Mack Howard, and he gave the two men a hard battle, finally driving them into a deep ravine. During the fight he had dodged bullets from the "45" fired by James Barrett and returned the fire with a Winchester shotgun as long as himself. Young Howard and his father were driving along the road leading from Jackson to their home on One Creek. Mack Howard and the Barretts had had trouble a day or two before, and it is believed by many (and the belief is sustained by the indictment against Howard) that he was following the Barretts. They met near a school house in a ravine, and young Dexter Howard who was driving the "nag" dropped the reins and opened fire on the Barretts. Mack Howard is paralyzed in his lower limbs and is unable to stand. He sat in his buggy and was in the act of firing when one of the Barretts shot his "nag" and the ball, passing through the "nag's" hip, struck Mack Howard in the elbow, disabling his right arm. He was then out of the game.

The boy in the meantime was on the ground firing at the Barretts, who took refuge behind the schoolhouse. As they fired young Howard dropped as if shot, but aimed his Winchester again. He repeated this several times until the Barretts retreated at the approach of others attracted by the shooting. In the scrap a small boy who was in the schoolhouse was shot in the groin but not painfully injured. Jim Barrett carried a furrow in his head, and Mack Howard suffered from a bad wound in the right arm.

When Dexter was arrested and brought into the provost guard headquarters at Jackson he was as cool as a man of years would have been. Neither the glitter of the uniforms of soldiers nor the long guns frightened him, and he told his story, which was afterward shown to be partly untrue, with any easy matter.

Were you ever in any trouble before? he was asked. "Well, I never had no one shooting at me direct," he replied; "but I seed a powerful lot of shoots. I seed fight lots of times, and bullets has come nigh'nough to scorch my hat but they wasn't fired at me."

It was afterward learned that this lad had three years before stood up and returned the fire of a man twice as big as he. He was raised in an atmosphere of fighting. His father, Mack Howard, has been in many fights and brawls, and is looked upon as a bad character. He is said to operate a blind tiger near Elkatawa, and it is in this place that he had learned the lesson of fighting.—Richmond Clinch.

### Libel Charge Placed Against Correspondent and Editor of Louisville Herald.

George W. Riley, correspondent of the Louisville Herald, was arrested at Frankfort on a charge of criminal libel preferred in the Livingston County Court by Mr. H. V. McChesney, State Superintendent of Public Instruction.

A similar warrant was issued for Young E. Allison, editor.

The warrants were issued by Judge Evans on an affidavit made by Mr. McChesney relative to articles appearing in the Louisville Herald on August 5 and August 6 last, written, it is alleged, by the persons mentioned. The charge made in the articles was to the effect that Mr. McChesney, now a candidate for the office of Secretary of State as the Democratic nominee, has been traveling about over the State prosecuting a canvass for that office and drawing from the school fund of the State to pay his expenses. This charge, it is declared in the affidavit of Mr. McChesney, is without the slightest foundation in fact.

### What P. C. Means.

Under the caption of "Two Interpretations," the Cincinnati Times-Star says: "A young farmer who had been converted at one of the revivals went before the next conference and asked for a license to be a preacher. 'I know I am bound to preach to the world,' said the applicant, 'for I had three visions all the same, and it has made a lasting impression upon me.' 'What was your vision?' asked the bishop. 'Well, I saw a big blue ring in the sky, and inside the big gold letters were 'P. C.' It meant 'Preach Christ' and I want to join the conference.' The argument was about to carry, when an old pastor stood up in the back part of the hall and said: 'Young man, we don't doubt your intentions, nor do we doubt that you saw the visions with the golden 'P. C.' but I am of the opinion that 'P. C.' meant 'Flow Corn.' The convert is still a farmer.'"

### THE RAMBLER.

Wise and Otherwise. RABBIT, BOUNTY, STOLEN.

This office is the proud possessor of a covert of six little strangers. They have four legs each and one tail each. The mother of these spotted little pets was seen several times, tipping in and out of her wigwam, but no one thought of her leaving these precious little ones as a remuneration for her kindness in allowing her to become one of our associates about the office. They are as playful as a gang of young cubs, and are now on exhibition. They will be distributed among our subscribers free of charge. First come, first served.

A few nights ago a damsel who had been disturbing the quietude of "Stawberry Alley," was warned to make herself scarce around those diggings. She defied any person who would interfere with her indecent conduct. She was roused from her nest a few nights since, and one would have thought that a steam calliope had been turned loose on East Main street from the shrieks and yells belched forth—pleading for protection. She now occupies a wigwam in close proximity to "Uncle Heights." If a few more of her class were moved from "Deep Bottom" the health and quietude of the good people who live in that part of town would be enhanced to a great degree.

### Must Wash Their Hands After Each Shave.

The new law regulating barber shops has become operative, and beginning September 1 any tonsorial artist in New York State caught shaving a customer without washing his hands in warm water and soap, or using a powder puff, or a towel on more than one person without having it washed, will be subject to imprisonment and fine. No alum or other astringent may be used in stick form to stop the flow of blood. The use of sponges is strictly prohibited. Mugs and shaving brushes must be thoroughly washed after use on each person. Combs, razors, clippers and scissors must be thoroughly cleaned by dipping in boiling water or other germ destroyer after each separate use. Other provisions are made for the cleanliness of shops and every barber must have a certificate procured on examination before a State Board.

### Condition of Crops in State.

The drought has been broken to some extent in many of the eastern counties, but more rain is needed in that section. In the extreme western end of the State, from the lower Cumberland river westward, drought has become severe. Throughout the greater part of the State, however, crops have not suffered any serious damage from the dry weather.

Early corn is maturing rapidly, and in the western and southern counties promises an extra large yield. While late corn has been checked by the recent dry spell, and in northeastern counties both early and late crops seriously damaged.
